Fees paid to audit firms

- BC7 In June 2022 the NZASB issued ED 2020-9 *Disclosure of Fees Paid to Audit Firms* (Proposed amendments to FRS-44) to enhance the existing requirements concerning the disclosure of information about fees incurred by the reporting entity during the reporting period for:
 - (a) the audit or review of the entity's financial statements; and
 - (b) other types of service provided by the entity's audit or review firm.
- BC8 The enhanced disclosures were proposed in response to concerns raised by key stakeholders about the inadequacy and inconsistency of information disclosed in general purpose financial statements about the nature and value of non-audit services provided by an entity's audit or review firm.
- BC9 The NZASB noted that the provision of non-audit services by an entity's audit or review firm is often seen by users as a key indicator of possible threats to auditor or reviewer independence. However, the NZASB also noted that the provision of non-audit services is just one of several factors that should be considered by those charged with governance when assessing auditor or reviewer independence.
- BC10 The NZASB agreed that the objective of the enhanced disclosures was not to provide users with all the information necessary to enable them to assess auditor independence, because those charged with governance have the responsibility for performing this assessment. In addition, the auditor's report, issued as a result of a financial statement audit or review engagement, is required to include a statement that the auditor or reviewer is independent of the entity in accordance with the relevant professional and ethical standards.
- BC11 In response to concerns raised by key stakeholders noted in BC8, the NZASB agreed the disclosure objective should be to provide information that will assist users of general purpose financial statements to assess the extent to which non-audit services have been provided by the entity's audit or review firm in the reporting period.
- BC12 The NZASB also agreed the disclosure objective was not to provide users with information about all relationships the audit or review firm may have with the reporting entity. The auditor or reviewer may have other relationships with the reporting entity in addition to those that arise from the provision of non-audit services. The auditor's report, issued as a result of a financial statement audit or review engagement, is required to include a statement as to the existence of any relationship (other than that of auditor or reviewer) which the auditor or reviewer has with, or any interest which the auditor or reviewer has in, the entity or any of its subsidiaries.
- BC13 The NZASB acknowledged that under applicable professional and ethical standards, auditors and other assurance practitioners are prohibited from providing certain non-audit services under certain circumstances. The NZASB noted the enhanced disclosures are not intended to provide guidance on when it is appropriate for certain types of non-audit services to be provided by an entity's audit or review firm. Instead, the enhanced disclosures are intended to provide increased transparency and consistency of reporting when a reporting entity has incurred fees for non-audit services in the reporting period.

The reference to 'reporting entity' in the BCs includes the group when consolidated financial statements are prepared.

- BC14 The NZASB noted the Australian Accounting Standards Board (AASB) has an ongoing project on *Auditor Remuneration* which is considering the introduction of similar enhanced disclosures. In December 2021, the NZASB agreed to develop, and issue proposed amendments ahead of AASB pronouncements on this topic. This decision was based on the uncertainty concerning when the AASB will be in a position to finalise its proposals and the need to respond to calls for improved disclosures from New Zealand stakeholders. The NZASB acknowledged the intention to harmonise the enhanced disclosure requirements with Australia in the future.
- BC15 The NZASB considered whether the amendments should also include proposals concerning the disclosure of information about audit tenure. The Board acknowledged this provided important information for users when considering risks to auditor independence but agreed not to propose disclosure requirements about audit tenure at this time. The Board will continue to follow developments in Australia and internationally on this matter.

Part D - Effective Date
