

AASB Action Alert

From the Australian Accounting Standards Board

Issue No: 214
20 May 2022

Welcome to the AASB Action Alert

The AASB Board met in public via videoconference on 18 May 2022. At the meeting the Board made key decisions in relation to:

[Not-for-Profit Private Sector Financial Reporting Framework](#)

[Sustainability Reporting](#)

The Board also discussed the following topics

[Agenda Consultation](#)

[Post-Implementation Reviews](#)

Not-for-Profit Private Sector Financial Reporting Framework

The Board decided to include the following proposals in the Discussion Paper (DP) on Tier 3 reporting requirements for not-for-profit (NFP) private sector entities.

Income recognition

Tier 3 reporting requirements should require:

- (a) a Tier 3 entity to assess whether a transaction is based on a common understanding, evidenced by the transfer provider in writing or some other form, that the entity is expected to use the inflows of resources in a particular way or act or perform in a particular way that results in outflows of resources, including:
 - (i) transferring goods or services;
 - (ii) performing a specified activity;

The AASB Action Alert is issued by the Australian Accounting Standards Board (AASB). It reports on meetings of the AASB as a service to stakeholders. Decisions reported are tentative and may be changed or modified by the AASB. Decisions become final only after completion of the formal processes required to issue documents. No responsibility is taken for the results of actions or omissions to act taken on the basis of any information in this report, or for any errors or omissions. © Australian Accounting Standards Board, 2022.

- (iii) incurring eligible expenditure for a specified purpose; and
- (iv) using the inflows of resources in respect of a specified time period;
- (b) for transactions described in (a), income to be recognised in the manner that most faithfully represents the amount and pattern of consumption by the entity of the resources received, such as:
 - (i) when goods or services are transferred;
 - (ii) when activities are performed;
 - (iii) when eligible expenditure is incurred; and
 - (iv) on a systemic allocation basis over the specified period; and
- (c) for other income transactions, income to be recognised at the earlier of receiving cash or obtaining a right to receive cash (a receivable).

Financial instruments

Tier 3 reporting requirements should:

- (a) address the accounting for simpler financial instruments often held by Tier 3 entities. Tier 3 reporting requirements should direct an entity to apply AASB 9 *Financial Instruments* for more complex financial instruments;
- (b) require transaction costs that are directly attributable to the acquisition or issue of a financial asset or financial liability to be expensed in the period incurred;
- (c) specify simpler subsequent measurement requirements for financial assets and financial liabilities overall. In particular, the Board decided to require financial assets and financial liabilities to be subsequently measured at cost, except for:
 - (i) financial assets that are held to generate both income and capital return for the entity – to be measured at fair value through other comprehensive income; and
 - (ii) derivative financial instruments – to be measured at fair value through profit or loss.

The Board decided to seek stakeholder feedback through the DP as to whether requiring financial assets and financial liabilities to be measured at transaction price would be a useful simplification.

Sustainability Reporting

The Board supported the draft Sustainability Reporting project plan. The principal objective of the project is to help preparers of general purpose financial statements meet the evolving information needs of

financial statement users by developing a separate set of reporting standards for sustainability-related financial information.

The key themes of feedback from outreach activities on AASB Exposure Draft ED 321 *Request for Comment on ISSB [Draft] IFRS S1 General Requirements for Disclosure of Sustainability-related Financial Information and [Draft] IFRS S2 Climate-related Disclosures* will be discussed at the Board's next meeting.

The Board will consider whether to proceed to develop Australian sustainability standards after considering the responses to ED 321 at a future meeting.

Agenda Consultation

The Board noted a summary of the feedback received in response to Invitation to Comment ITC 46 *AASB Agenda Consultation 2022–2026*. The Board will consider its responses to the feedback at its next meeting.

Post-Implementation Reviews

The Board received an update on its Post-implementation Review (PIR) project, including a revised project timeline. In respect of the PIR of AASB 1059 *Service Concession Arrangements: Grantors*, the Board considered the key findings of the planning phase and decided to bring forward the outreach phase of the project. The Board plans to issue a consultation document for the PIR of AASB 1059 in August 2022.

Recently Approved Documents

Since last reported (8 April 2022), the Board has approved the following Standards, Exposure Drafts or other proposal documents.

Date Approved	Document	Effective Date (Standards/Int'ns) or Due Date for Submissions (EDs)
